 ROVIO

CORPORATE GOVERNANCE STATEMENT 2018

Introduction

Rovio's Corporate Governance Statement has been prepared in accordance with the Corporate Governance reporting requirements of the Finnish Corporate Governance Code 2015 and related instructions issued by the Securities Markets Association, which are available at <https://cgfinland.fi/en/corporate-governance-code/>. This statement includes descriptions of Rovio's Corporate Governance and internal control procedures, as well as the main features of its risk management systems. This statement has been prepared separately from the Report of the Board of Directors.

Rovio's Board of Directors and the Board's Audit Committee have reviewed this Corporate Governance Statement. Rovio's auditor, Ernst & Young Oy, has verified that the statement has been issued, and that the description of the main features of the internal control and risk management systems related to the financial reporting process contained herein are consistent with the Financial Statements. Rovio's Board of Directors has approved this Corporate Governance Statement in its meeting on February 13, 2019.

The Corporate Governance Statement and Rovio's financial statements and Report of the Board of Directors for the financial period January 1–December 31, 2018, were published on March 12, 2019, and they are available at <https://www.rovio.com/investors/releases-and-publications>.

Rovio's shares are listed on Nasdaq Helsinki Ltd. Rovio complies with Finnish legislation, in particular the Limited Liability Companies Act, Accounting Act and Securities Markets Act, as well as Rovio's Articles of Association and corporate governance principles ratified by the Company's Board of Directors. We also observe the Corporate Governance Code for Finnish Listed Companies 2015. Rovio does not deviate from any of the recommendations of the Corporate Governance Code 2015.

Corporate governance

The ultimate responsibility for the management and operations of the Rovio Group of companies lies with the governing bodies of the parent entity Rovio Entertainment Corporation ("Rovio" or "the Company"): the General Meeting of Shareholders, the Board of Directors and the CEO, supported by the Leadership Team.

General meeting of shareholders

The shareholders take part in the supervision and governance of Rovio through the resolutions of General Meetings of Shareholders. The General Meeting of Shareholders is the Company's highest decision-making body.

The General Meeting of Shareholders is generally convened by the Board of Directors. In addition to this, a General Meeting of Shareholders shall be held if Rovio's auditor or shareholders representing a minimum of one-tenth of all outstanding shares in Rovio demand in writing that a General Meeting be convened.

The general meetings of Rovio are held in Helsinki, Espoo or Vantaa. The Annual General Meeting shall be held annually within six (6) months of the end of the financial year.

The notice convening the General Meeting shall be delivered to the shareholders no earlier than three (3) months and no later than three (3) weeks prior to the Meeting, but no later than nine (9) days before the record date of the General Meeting. The notice shall be delivered to the shareholders by means of a notice published on Rovio's website or at least in one national daily newspaper designated by the Board of Directors.

In order to be entitled to attend the General Meeting, a shareholder must notify Rovio of their attendance by the date specified in the notice convening the General Meeting, which date may not be earlier than ten (10) days prior to the General Meeting.

General meetings of shareholders in 2018

Rovio's Annual General Meeting was held on April 16, 2018, at Finlandia Hall in Helsinki. No other general meetings of shareholders were held in 2018.

Board of Directors

According to Rovio's Articles of Association, the Board of Directors consists of a minimum of three and a maximum of nine ordinary members. The Annual General Meeting elects the Chairman and the Vice Chairman of the Board of Directors.

The duties and operating principles of the Board of Directors are based on Finnish legislation, in particular the Finnish Limited Liability Companies Act and the Securities Market Act, as well as on the company's Articles of Association, the rules of Nasdaq Helsinki and the Finnish Corporate Governance Code for companies listed on Nasdaq Helsinki.

The general objective Board of Directors is defining and directing strategy for the Rovio Group and duly arranging the business, administration and operations of the whole Rovio Group. The Board of Directors has quorum when more than half of the members are present.

The Board Charter specifies the duties of the Board of Directors as well as the methods of working at a practical level. In accordance with the Board Charter, the Board of Directors shall decide on the basic strategies of the Rovio Group's business units' business plans and budgets and monitor their implementation, decide on the conditions and boundaries concerning the Group's capital expenditure, decide on the principles related to authorization, approval and signing levels and monitor their implementation, decide on any major individual investment or expenditure as well as on any other major and strategically significant investments and financing arrangements, and decide on business acquisitions and divestments by any of the Rovio Group companies.

In addition, the Board of Directors shall decide on appointment and dismissal of the Chief Executive Officer, his/her possible deputy and the other members of the Leadership Team, monitoring issues relating to top management resources,

significant changes in the business organization of the Rovio Group, as well as decide the incentive schemes and remunerations based on proposals by the Remuneration Committee.

The Board shall decide on Rovio Group's ethical values, establishment of the dividend policy, evaluating and approving Rovio's interim reports and annual accounts, monitoring issues pertaining to significant risks and risk management activities and ensuring that adequate policies for risk management are in place.

The Board of Directors is also responsible for calling the annual General Meeting of the Shareholders and providing all necessary proposals to the General Meeting.

Rovio does not have a nomination committee of the Board of Directors, and thus the Board of Directors prepares and presents to the General Meetings the proposals for remuneration, size and members of the Board of Directors.

The Board evaluates the independence of its members annually in accordance with the Corporate Governance recommendations. Among the members of Rovio's Board of Directors, Mika Ihamuotila, Niklas Zennström, Kim Ignatius and Jenny Wolfram are independent of Rovio and its significant shareholders. Kaj Hed and Camilla Hed-Wilson are beneficial owners of Oivor AB, Rovio's largest shareholder, and thus they are deemed not independent of Rovio's major shareholders.

The main features of Rovio's risk management and internal control

Risk management

Purpose

The Rovio risk management policy defines the objectives and principles, organization, responsibilities and practices of risk management within Rovio.

Risk management is an important part of the Rovio Group business management and corporate governance. The objective of Rovio's risk management is to support the whole organization in achieving its strategic, operational and financial targets. In order to meet the objectives Rovio has incorporated procedures to recognize, assess and manage risks and their consequences. The risk management objective is reached when the Group has identified the uncertainties, risks and opportunities related to the targets and is able to effectively assess and manage the risks.

Rovio's enterprise risk management

Risk management in Rovio aims at ensuring a Group wide risk recognition, assessment, management and control. Risk management is a part of Rovio's day-to-day decision-making and operations. Risk management is handled both centrally and in business units to ensure efficiency and visibility across the organization. Key risks are regularly and systematically recognized, assessed and reported to the Board of Directors as a part of the business operations at a Group and business unit level.

Risk definition and risk categories

Rovio divides risks into external and internal risks and further into strategic, operational and financial risks.

Strategic risks are uncertainties mainly related to changes in Rovio's operating environment and the ability to respond to these changes or to prepare for them. These can be related to e.g. changes in the macro-economic situation, legislative environment, technologies, consumer behaviors and competitive environment.

The goal of assessing strategic risks and opportunities is to identify the measures that can and should be taken to achieve objectives by taking controllable risks. Failure to identify or take advantage of opportunities also constitutes a risk.

Operational risks are circumstances or events which can prevent or hinder the achievement of objectives or cause damage to people, property, business or information. The goal is to avoid or reduce operational risks to an extent, where the cost of measures is in a reasonable proportion to the extent of the risk.

Financial risks are risks related to Rovio's financial position. These include currency risk, liquidity and funding risk, interest rate risk, credits and counterparty risk. The management of financial risks is based on the Group's finance policy, confirmed by the Board of Directors.

Risk assessments consider also other aspects than purely financial impacts. Reputational risks arise if Rovio's operations are inconsistent with the expectations of different stakeholder groups, such as the end consumers for Rovio's products, business partners or the general public. Preventing reputational risks requires compliance with Rovio's internal guidelines and corporate governance. The management of reputational risks relies especially on providing timely and appropriate external communication.

The risks are further divided into group level and business unit (i.e. Games and Brand licensing) level risks.

Risk management in 2018

In connection with Rovio's listing in 2017, an external and internal risk management assessment was carried out in several areas to ensure that there are no material and unreported risks and that the existing governance and reporting

processes are sufficiently robust. Rovio continued the development of its risk management process in 2018. As a result, the identification and reporting of risks was formalized and established as a regular activity, while also taking action to minimize previously identified key risks.

In 2018, special attention continued to be paid to topics such as the requirements stipulated by the EU General Data Protection Regulation (GDPR), which entered into effect in May 2018. The risks related to the Angry Birds brand were also evaluated and measures were continued to minimize potential risks.

Rovio's strategic and business objectives as well as Rovio's Corporate Governance set the foundation for the Internal Control processes. The Board's Audit Committee monitors the efficiency and functioning of the internal control process, Rovio management is responsible for establishing and maintaining adequate internal controls and for monitoring the effectiveness as part of operative management.

Rovio's internal control is determined to be effective, when the Leadership Team and the Board of Directors have reasonable assurance, that the organization: operates effectively, reports in conformity with applicable rules, regulations, and standards or with the entity's specified reporting objectives; and complies with applicable laws, rules, regulations, and external standards.

Internal audit

The objective of Rovio's internal audit is to act as an independent advisor and provide assurance on the functionality of Rovio's Internal Control, internal audit and risk management systems and processes.

Rovio does not have its own internal audit team; the Internal Audit at Rovio is more a process than a function. Internal Audit is led by the Audit Committee, who ultimately decides the procedures and activities to be performed. Some of these may be delegated within Rovio, for instance to the CEO, CFO or General Counsel or outsourced to an external party, if that is more efficient and/or adequate. Internal Audit may work closely together also with external auditors, especially in areas where they mutually support each other's objectives.

Internal Audit is responsible for the development and the approval of an audit plan. The plan typically details proposed approach over the next 12 months. Internal Audit reviews the plan regularly together with the Audit Committee and any suggested material amendments to it. The Audit Committee approves the plan, which is executed either by Rovio internally or outsourced to reliable partners, especially in areas that require fully independent and/or specialized knowledge and capabilities.

Internal audit in 2018

The previously prepared internal audit plan was followed in 2018. In accordance with the plan, various audit areas were presented to the Board of Directors, which selected the processes and operating methods of Rovio Group's licensing business as the focus area for 2018. Rovio's internal audit partner KPMG carried out a process assessment and validation. Based on the internal audit performed by KPMG, no material areas requiring immediate action were identified.
